GOLD BULLION DEVELOPMENT CORP.

Notes to the Interim Condensed Consolidated Financial Statements

March 31, 2016

(Expressed in Canadian Dollars) (Unaudited)

1. Nature of Operations and Going Concern

Gold Bullion Development Corp. (“Gold Bullion” or the “Company”) is domiciled in Canada and was incorporated on July 17, 1985 under the Company Act of British Columbia. The Company is a publicly-traded company with its shares listed on TSX Venture Exchange, the Frankfurt Stock Exchange, and the US over-the-counter (“OTC”) market. The principal business of the Company is the acquisition, exploration and development of mineral property interests. The Company’s head office is located at 2875 Avenue Granada, Rouyn-Noranda, Quebec, J9Y 1J1.

These consolidated financial statements were reviewed, approved and authorized for issue by the Board of Directors on May 27, 2016.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral deposits that are economically recoverable. The Company will periodically have to obtain additional funds to continue its exploration activities, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company’s continuing existence is dependent upon the discovery of economically recoverable reserves and resources, the preservation of its interest in the underlying properties, the ability of the Company to obtain necessary financing to complete exploration, development and construction of processing facilities, obtaining certain government approvals and the achievement of profitable operations. The Company’s assets may also be subject to increases in royalties and taxes, renegotiation of contracts, currency exchange fluctuations and restrictions, and political uncertainty.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company’s assets may also be subject to increases in taxes and royalties, and renegotiation of contracts.

These consolidated financial statements have been prepared using International Financial Reporting Standards (“IFRS”) on the basis of accounting principles applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported revenues and expenses and statement of financial position classifications that would be necessary were the going concern assumption deemed inappropriate. Such adjustments could be material.

GOLD BULLION DEVELOPMENT CORP.

Notes to the Interim Condensed Consolidated Financial Statements

March 31, 2016

(Expressed in Canadian Dollars) (Unaudited)

1. Nature of Operations and Going Concern (cont'd)

As at March 31, 2016, the Company had not yet achieved profitable operations, has accumulated losses of \$60,193,798 (June 30, 2015 - \$60,231,899) since its inception, has a working capital deficiency of \$2,528,017 (June 30, 2015 – \$3,529,930) and expects to incur further losses in the development of its business.

The Company has a need for equity capital and financing for working capital and exploration and development of its properties. Because of continuing accumulated operating losses, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations. Management believes that unless additional funding is obtained there may be material uncertainty as to the Company's ability to continue as a going concern.

2. Basis of Preparation

(a) Statement of Compliance

The Company prepares its financial statements in accordance with Canadian generally accepted accounting principles as set out in the Handbook of the Canadian Institute of Chartered Accountants ("CICA Handbook"), which incorporates International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Accordingly, these condensed interim financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including IAS 34, as required by National Instrument 52-107 sec. 3.2(1)(b)(ii).

(b) Basis of Presentation

These consolidated financial statements have been prepared on the historic cost basis, except certain financial instruments that have been measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The preparation of consolidated financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the three months. Actual results may ultimately differ from these estimates.

(c) Functional and Presentation Currency

These consolidated financial statements are presented in Canadian dollars, which is also the Company's functional currency.

3. Significant accounting policies

The accounting policies set out in the Company's audited financial statements for the year ended June 30, 2015 have been applied consistently to these interim condensed consolidated financial statements.

GOLD BULLION DEVELOPMENT CORP.

4. Significant Judgements, Estimates and Assumptions

The significant judgements, estimates and assumptions set out in the Company's audited financial statements for the year ended June 30, 2015 have been applied consistently to these interim condensed consolidated financial statements.

5. Receivables

	December 31, 2015	June 30, 2015
	\$	\$
Commodity taxes	51,667	103,394
Other receivable	5,294	20,000
Tax credits receivable	11,747	11,747
	\$	\$
	<u>68,708</u>	<u>135,141</u>

The Company is entitled to a refundable tax credit of up to 35% on qualified mining exploration expenditures net of flow-through renunciations incurred in the Province of Quebec and a refund of mining duties at an effective rate of up to 8% (2014 – 8%) on qualified Canadian exploration expenditures net of flow-through renunciations and the refundable tax credit. These refunds are applied against the exploration expenses and included in tax credits receivable.

6. Deposit – Long-term

As at March 31, 2016 and June 30, 2015, the Company has a non-interest bearing cash deposit of \$171,800 with the Quebec government as a guarantee for the restoration of the Granada mine site. The Company had no material decommissioning obligations as at March 31, 2016 and June 30, 2015.

7. Exploration and Evaluation Projects

The Company has determined that as at March 31, 2016 the following projects have not met the technical feasibility and commercial viability criteria to be capitalized and classified in mining properties. Accordingly, the Company has expensed all exploration and evaluation expenditures in the nine months. As of March 31, 2016 and June 30, 2014, the Company did not hold any assets classified as mining properties.

Granada Property, Quebec, Canada

The Company holds a 100% interest to certain mining leases and claims. The mining leases are subject to a 2% GMR, ½ of which may be purchased for \$1,000,000 and a 1% NSR and 23 of the original mining claims are subject to a 1% NSR. Additionally, there is a 2% NSR on 4 properties optioned from the D2D3 Group ("D2D3") in 2010, half of which may be purchased for \$1,000,000.

7. Exploration and Evaluation Projects (cont'd)

Castle Property, Ontario, Canada

On September 15, 2015, the Company sold its wholly-owned subsidiary, Castle, to Takara Resources Inc. ("Takara"). Takara acquired all of the issued and outstanding common shares of Castle from the Company in exchange for 10,000,000 units of Takara to be issued in equal amounts of 2,500,000 units with the first issuance on closing of the transaction and the remaining issuances on each anniversary from the closing date for the next 3 years. Each unit comprises of one common share in the capital of Takara and one common share purchase warrant exercisable at \$0.10.

Effective June 30, 2015 the Company, acquired a 1% NSR on the Castle Silver Mines property in return for the expenditure of in excess of \$1,000,000 in exploration expenses made on the Castle property.

Beaver and Violet Properties, Ontario, Canada

The Company holds a 7-year option with Jubilee Gold Exploration Ltd. ("Jubilee") to acquire a 100% interest to an area in Coleman Township, Ontario. The property is subject to a 3% net smelter return royalty, and the Company may purchase each 1% of the NSR royalty for \$1.5 million.

On October 8, 2015, the Company, subject to TSX-V approval, entered into an Assignment Agreement with Takara, granting Takara the right to acquire a 100% interest in the Beaver and Violet cobalt and silver properties located in the township of Coleman, in northern Ontario. Pursuant to the Agreement, Takara will pay the Company an aggregate of \$75,000, consisting of \$15,000 payable within ten days upon execution of the Agreement plus four equal instalments of \$15,000 on the first, second, third and fourth anniversary dates of the date of the Agreement. TSX-V is subject to the Company obtaining shareholder approval for the transaction. Shareholder approval was obtained on March 29, 2016 and the TSX-V approved the transaction on May 13, 2016.

9. Secured Loans Payable

On August 4, 2015, the Company entered into two loan agreements and a Supply and Services agreement for proceeds totaling \$800,000.

The first loan agreement is with an existing shareholder a demand loan for proceeds of \$200,000 over a three-year term at an interest rate of 8% calculated monthly and payable annually. The loan will automatically renew for an additional three-year term until such time as the lender agrees to terminate the agreement. The lender also has the option to obtain interest and principal loan repayments in gold rather than cash should that option become feasible while the loan remains in place. In that event, the gold is to be valued at US \$800 per ounce. The lender also has the option to participate in future financings but is not obliged to do so. The outstanding loan balance is subject to repayment in full at any time at the discretion of the lender.

9. Secured Loans Payable (cont'd)

The second loan is from a company owned by a director of the Company and comprises a \$100,000 demand loan also with a three-year term at an interest rate of 8% calculated monthly and payable annually.

The third agreement is a Supply and Services non-interest bearing loan for \$500,000 over the upcoming 12 months from a company owned by a director of the Company. The lender has the option to obtain loan principal repayments including interest as applicable, in gold valued at US \$800 per ounce if feasible. The Supply and Services loan is to be used for specific projects on the property that will advance the Company forward.

On November 11, 2015 and January 8, 2016 the Company entered into a second and third loan agreement with an existing shareholder for a demand loan for proceeds of \$200,000 over a three-year term at an interest rate of 8% calculated monthly and payable annually. The loan will automatically renew for an additional three-year term until such time as the lender agrees to terminate the agreement. The lender also has the option to obtain interest and principal loan repayments in gold rather than cash should that option become feasible while the loan remains in place. In that event, the gold is to be valued at US \$800 per ounce. The lender also has the option to participate in future financings but is not obliged to do so. The outstanding loan balance is subject to repayment in full at any time at the discretion of the lender.

The Granada Gold property is to be registered as security against these loans.

Options

The Company's Stock Option Plan (the "Plan") provides for the granting of stock options to directors, officers, employees and consultants of the Company. Share options are granted for a term not to exceed ten years from the date of grant. All options are subject to a four month holding period from the date of grant if granted at the price lower than the market price or to insiders. The Plan is administered by the Board of Directors, which determines individual eligibility under the Plan, number of shares reserved for optioning to each individual (not to exceed 5% of issued and outstanding shares to any one individual) and the vesting period. The maximum number of shares of the Company which may be reserved for the issuance shall be 10% of the issued and outstanding shares at the time of the option grant.

The Company records the fair value of stock-based compensation on the granting of stock options over the period in which they vest. The fair value is determined using the Black-Scholes option pricing model.

For the nine months ended March 31, 2016, the Company recorded stock-based compensation expense of \$321,575 (June 30, 2015 - \$285,450). The following weighted average assumptions were used for the Black-Scholes option pricing model:

Risk-free interest rate	0.75% 1.25%
Expected volatility	114% to 151%
Expected dividend yield	0.00
Expected life (years)	1 to 5 years
Estimated fair value at grant date	0.036 to 0.049

- b) The Company retains the services of two directors and an officer to carry out administrative services. During the nine months ended March 31, 2016, the total amount for such services provided was of \$282,500 (March 31, 2015 – \$207,030) which was recorded in management and consulting fees.
- c) On August 4, 2015, the Company entered into a loan agreement and a Supply and Services agreement for proceeds totaling \$600,000.

The loan agreement is from a company owned by a director of the Company and comprises a \$100,000 demand loan with a three-year term at an interest rate of 8% calculated monthly and payable annually. The loan will automatically renew for an additional three-year term until such time as the lender agrees to terminate the agreement. The lender also has the option to obtain interest and principal loan repayments in gold rather than cash should that option become feasible while the loan remains in place. In that event, the gold is to be valued at US \$800 per ounce. The lender also has the option to participate in future financings but is not obliged to do so. The outstanding loan balance is subject to repayment in full at any time at the discretion of the lender.

The agreement is a Supply and Services non-interest bearing loan for \$500,000 over the upcoming 12 months from a company owned by a director of the Company. The lender has the option to obtain loan principal repayments including interest as applicable, in gold valued at US \$800 per ounce if feasible. The Supply and Services loan is to be used for specific projects on the property that will advance the Company forward.

The Granada Gold property is to be registered as security against the loans.

14. Contingencies

The Company's operations are subject to governmental laws and regulations regarding environmental protection. The environmental consequences are hardly identifiable, whether with the outcomes, the impacts or the deadline. As at March 31, 2016 and to the best knowledge of its management, the Company is, at the present, in conformity with the laws and regulations.

The Company is partly financed by the issuance of flow-through shares. However, there are no guarantees that the funds spent by the Company will qualify as Canadian exploration expenditures, even if the Company has taken all the necessary measures for this purpose. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors.

Moreover, tax rules regarding flow-through investments set deadlines for carrying out the exploration work no later than the first of the following dates:

- i) Two years following the flow-through investment;
- ii) One year after the Company has renounced the tax deductions relating to the exploration work.

14. Contingencies (cont'd)

The Company has indemnified the subscribers of current and previous flow-through offerings against any tax related amounts that become payable by shareholders in the event the Company does not meet its expenditure commitment.

As at June 30, 2015, in relations to renunciation shortfalls from fiscal years 2006 to 2008, the Company has accrued \$385,852 (2014 – \$367,478) for Part XII.6 taxes and penalties on the \$1,759,590 shortfall. In addition, \$1,098,004 (2014 - \$1,045,718) has been accrued for potential claims which may arise as a result of possible reassessments denying personal tax deductions to the investors. The Company had reviewed the reassessment proposed by the CRA, and had filed objections on certain of the claims.

In relations to renunciation shortfall from fiscal year 2012, the Company has accrued \$113,732 (2014 – \$108,316) for Part XII.6 taxes and penalties on the \$765,495 shortfall. In addition, \$350,000 has been accrued for potential claims which may arise as a result of possible reassessments denying personal tax deductions to the investors.

In relations to renunciation shortfall from fiscal year 2014, the Company has accrued \$230,000 for Part XII.6 taxes and penalties on the \$1,064,850 shortfall. In addition, \$500,000 has been accrued for potential claims which may arise as a result of possible reassessments denying personal tax deductions to the investors.

16. Financial Risk Management

Overview

The Company has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk;
- market risk, including commodity price risk, foreign currency exchange risk and interest rate risk; and
- operational risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

16. Financial Risk Management (cont'd)

Risk Management Framework (cont'd)

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board fulfills its responsibility through the Audit Committee, which is responsible for overseeing the Company's risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management practices are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company has an established code of conduct which sets out the control environment within which framework all directors' and employees' roles and obligations are outlined.

The Company's risk and control framework is facilitated by the small-sized and hands-on executive team. There have been no changes in the risks, objectives, policies and procedures as set out in the Company's June 30, 2014 audited financial statements during the nine months ended December 31, 2014.

17. Capital Management Disclosures

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of exploration and evaluation projects. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company considers its capital to be equity, which is comprised of common shares, reserves and deficit, which as at March 31, 2016 totalled a shareholders' deficiency of \$2,910,203 (June 30, 2015 – \$3,307,117).

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

The Company currently has no significant source of revenues, and therefore is dependent on external financing to fund activities. In order to carry future projects and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the nine months ended March 31, 2016 and year ended June 30, 2015. The Company is not subject to externally imposed capital requirements.
