GRANADA GOLD MINE INC.
(formerly Gold Bullion Development Corp)
Notes to the Consolidated Financial Statements
Nine months ended March 31, 2017
Unaudited
(Expressed in Canadian Dollars)

1. Nature of Operations and Going Concern

Granada Gold Mine Inc. (formerly Gold Bullion Development Corp.) (“Granada” or the “Company”) is domiciled in Canada and was incorporated on July 17, 1985 under the Company Act of British Columbia. The Company is a publicly-traded company with its shares listed on TSX Venture Exchange (“TSXV”), the Frankfurt Stock Exchange, and the US over-the-counter (“OTC”) market. The principal business of the Company is the acquisition, exploration and development of mineral property interests. The head office of the Company is located at 3028 Quadra Court, Coquitlam, BC, V3B 5X6.

These consolidated financial statements were reviewed, approved and authorized for issue by the Board of Directors on May 29, 2017.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral deposits that are economically recoverable. The Company will periodically have to obtain additional funds to continue its exploration activities, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company’s continuing existence is dependent upon the discovery of economically recoverable reserves and resources, the preservation of its interest in the underlying properties, the ability of the Company to obtain necessary financing to complete exploration, development and construction of processing facilities, obtaining certain government approvals and the achievement of profitable operations.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to government licensing requirements or regulations, social licensing requirements, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company’s assets may also be subject to increases in taxes and royalties, and renegotiation of contracts.

These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported revenues and expenses and statement of financial position classifications that would be necessary were the going concern assumption deemed inappropriate. Such adjustments could be material.

As at March 31, 2017, the Company had not yet achieved profitable operations, has accumulated losses of \$62,629,045 (June 30, 2016 - \$61,828,347) since its inception, has a working capital deficiency of \$3,896,395 (June 30, 2016 – \$3,690,018) and expects to incur further losses in the development of its business.

GRANADA GOLD MINE INC.
(formerly Gold Bullion Development Corp)
Notes to the Consolidated Financial Statements
Nine months ended March 31, 2017
Unaudited
(Expressed in Canadian Dollars)

1. Nature of Operations and Going Concern (cont'd)

The Company has a need for equity capital and financing for working capital and exploration and development of its properties. Because of continuing accumulated operating losses, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations. Management believes that unless additional funding is obtained there may be a significant risk of material uncertainty as to the Company's ability to continue as a going concern.

2. Basis of Preparation

(a) Statement of Compliance

The Company prepares its financial statements in accordance with Canadian generally accepted accounting principles as set out in the Handbook of the Canadian Institute of Chartered Accountants ("CICA Handbook"), which incorporates International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Accordingly, these condensed interim financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including IAS 34, as required by National Instrument 52-107 sec. 3.2(1)(b)(ii).

(b) Basis of Presentation

These consolidated financial statements have been prepared on the historic cost basis, except certain financial instruments that have been measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The preparation of consolidated financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the year. Actual results may ultimately differ from these estimates. Of particular significance are the estimates and assumptions used in the recognition and measurement of items included in Note 4.

(c) Functional and Presentation Currency

These consolidated financial statements are presented in Canadian dollars, which is also the functional currency of the Company and its subsidiary.

For the purpose of the consolidated financial statements, the results and financial position are expressed in Canadian dollars. Transaction in currencies other than the functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Foreign exchange gains and losses are presented in the consolidated statement of loss. The Company does not have any foreign operations.

GRANADA GOLD MINE INC.
(formerly Gold Bullion Development Corp)
Notes to the Consolidated Financial Statements

Unaudited
(Expressed in Canadian Dollars)

3. Significant accounting policies

The accounting policies set out in the Company's audited financial statements for the year ended June 30, 2016 have been applied consistently to these interim condensed consolidated financial statements.

4. Significant Judgements, Estimates and Assumptions

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions based on currently available information that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the year. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual results could differ from those estimates. By their very nature, these estimates are subject to measurement uncertainty and the effect on the consolidated financial statements of future periods could be material.

In the process of applying the Company's accounting policies, management has made the following judgments, estimates, and assumptions which have the most significant effect on the amounts recognized in the consolidated financial statements:

Income taxes

The Company is subject to income, value added, withholding and other taxes. Significant judgment is required in determining the Company's provisions for taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. The determination of the Company's income, value added, withholding and other tax liabilities requires interpretation of complex laws and regulations. The Company's interpretation of taxation law as applied to transactions and activities may not coincide with the interpretation of the tax authorities. All tax related filings are subject to government audit and potential reassessment subsequent to the financial statement reporting period. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the tax related accruals and deferred income tax provisions in the period in which such determination is made.

Decommissioning and restoration costs

Decommissioning and restoration costs will be incurred by the Company at the end of the operating life of certain of the Company's assets. The ultimate decommissioning and restoration costs are uncertain and cost estimates can vary in response to many factors including changes to relevant legal and regulatory requirements, the emergence of new restoration techniques or experience at other production sites. The expected timing and amount of expenditure can also change, for example in response to changes in reserves or changes in laws and regulations or their interpretation. In determining the amount of the provision, assumptions and estimates are required in relation to discount rates. As a result, there could be significant adjustments to the provisions established which would affect future financial results. In the Company's judgment, the most appropriate discount rate to use is one that reflects current market assessments and the risks specific to the liability.

GRANADA GOLD MINE INC.
(formerly Gold Bullion Development Corp)
Notes to the Consolidated Financial Statements
Nine months ended March 31, 2017
Unaudited
(Expressed in Canadian Dollars)

4. Significant Judgements, Estimates and Assumptions (cont'd)

Share-based payments

The Company uses the fair value method of valuing compensation expense associated with the Company's stock option plan. Estimating fair value requires determining the most appropriate valuation model for a grant of equity instruments, which is dependent on the terms and conditions of the grant. This also requires determining the most appropriate inputs to the valuation model including the expected life of the option, volatility, expected forfeitures and distribution yield. Such judgements and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.

Premium on Flow-through shares

At the time of issue, the Company estimates the proportion of proceeds attributed to the flow-through share, the common share and the warrant with reference to closing market prices and such techniques as the Black-Scholes option-pricing model. The Flow-through Premium is estimated as the excess of the subscription price over the market value of the share and is recorded in trade and other payables on the consolidated statements of financial position. When the eligible expenditures are incurred, the Flow-Through Premium is reversed into the statement of loss within other income (expenses) when the eligible expenditures are incurred.

5. Deposit – Long-term

As at March 31, 2017 and June 30, 2016, the Company has a non-interest bearing cash deposit of \$171,800 with the Quebec government as a guarantee for the restoration of the Granada mine site. The Company has estimated that it has no material decommissioning obligations as at March 31, 2017 and June 30, 2016.

6. Exploration and Evaluation Projects

The Company has determined that as at March 31, 2017 the following projects have not met the technical feasibility and commercial viability criteria to be capitalized and classified in mining properties. Accordingly, the Company has expensed all exploration and evaluation expenditures in the year. As of March 31, 2017, and June 30, 2016, the Company did not hold any assets classified as mining properties.

Granada Property, Quebec, Canada

The Company holds a 100% interest to certain mining leases and claims. The mining leases are subject to a 2% Gross Metal Royalty ("GMR"), ½ of which may be purchased for \$1,000,000 and a 1% Net smelter royalty (NSR) and 23 of the original mining claims are subject to a 1% NSR. Additionally, there is a 2% NSR on 4 properties optioned from the D2D3 Group ("D2D3") in 2010, half of which may be purchased for \$1,000,000.

GRANADA GOLD MINE INC.
(formerly Gold Bullion Development Corp)
Notes to the Consolidated Financial Statements
Nine months ended March 31, 2017
Unaudited
(Expressed in Canadian Dollars)

6. Exploration and Evaluation Projects (cont'd)

Castle Property, Ontario, Canada

The Company previously owned, through its wholly owned subsidiary, Castle, a 100% interest to certain claims. On September 15, 2015, the Company sold its wholly-owned subsidiary, Castle, to Castle Silver Resources Inc. (formerly Takara Resources Inc.)

Effective June 30, 2015, the Company, earned a 1% NSR on the Castle Silver Mines property in return for the expenditure of \$1,000,000 in exploration expenses made on the Castle property.

On September 30, 2016, the Company entered into a Letter of Intent ("LOI") with Castle Silver Resources Inc. to advance the "Castle Golden Corridor Zone" discovered through surface sampling at Castle's 3,300 hectare Castle Silver Mine Property 75 km southwest of Kirkland Lake.

Under the terms of the LOI, Castle will transfer a 50% interest in 5 contiguous mineral claims on the property covering 91 hectares (the "Castle Golden Corridor Zone") in lieu of \$60,000 in property payments owed to Granada pursuant to an Assignment Agreement between the two companies dated October 8, 2015, concerning the Beaver and Violet cobalt-silver properties.

Beaver Property, Ontario, Canada

The Company held an option with Jubilee Gold Exploration Ltd. ("Jubilee") to acquire a 100% interest to an area in Coleman Township, Ontario. The property is subject to a 3% net smelter return royalty, and the Company may purchase each 1% of the NSR royalty for \$1.5 million.

On October 8, 2015, the Company, entered into an Assignment Agreement with Castle, granting Castle the right to acquire a 100% interest in the Beaver and Violet cobalt and silver properties located in the township of Coleman, in northern Ontario. Pursuant to the Agreement, Castle will pay the Company an aggregate of \$75,000, consisting of \$15,000 (received) payable within ten days upon execution of the Agreement. The remaining \$60,000 under this agreement was offset against the \$60,000 the Company owed to Castle as part of the LOI dated September 30, 2016.

8. Secured Loans Payable

On August 4, 2015, the Company entered into two loan agreements and a Supply and Services agreement for proceeds totaling \$800,000.

The first loan agreement is with an existing shareholder. A demand loan for proceeds of \$200,000 over a three-year term at an interest rate of 8% calculated monthly and payable annually. The loan will automatically renew for an additional three-year term until such time as the lender agrees to terminate the agreement. The lender also has the option to obtain interest and principal loan repayments in gold rather than cash should the Company reach commercial production while the loan remains in place. In that event, the gold is to be valued at US \$800 per ounce. The lender also has the option to participate in future financings but is not obliged to do so. The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender.

The second loan is from a company owned by a director of the Company and comprises a \$100,000 demand loan also with a three-year term at an interest rate of 8% calculated monthly and payable annually. The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender.

(Expressed in Canadian Dollars)

8. Secured Loans Payable (c9nt'd)

The third agreement is a Supply and Services non-interest bearing loan for \$500,000 over the upcoming 12 months from a company owned by a director of the Company. The lender has the option to obtain loan principal repayments including interest as applicable, in gold valued at US \$800 per ounce if the company reaches commercial production. The Supply and Services loan is to be used for specific projects on the property that will advance the Company forward.

The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender.

On November 11, 2015 and January 8, 2016, the Company entered into a second and third loan agreement with an existing shareholder for a demand loan for proceeds of \$200,000 over a three-year term at an interest rate of 8% calculated monthly and payable annually. The loan will automatically renew for an additional three-year term until such time as the lender agrees to terminate the agreement. The lender also has the option to obtain interest and principal loan repayments in gold rather than cash should the Company reach commercial production while the loan remains in place. In that event, the gold is to be valued at US \$800 per ounce. The lender also has the option to participate in future financings but is not obliged to do so. The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender.

The Granada Gold property is registered as security against these loans. As a triggering event has not taken place, no value has been attributed to the derivative relating to the right of the lenders to demand repayment in gold valued at US \$800 per ounce.

Reserves - Options

The Company's Stock Option Plan (the "Plan") provides for the granting of stock options to directors, officers, employees and consultants of the Company. Share options are granted for a term not to exceed ten years from the date of grant. All options are subject to a four-month holding period from the date of grant if granted at the price lower than the market price; options granted at market prices are not subject to the hold period. The Plan is administered by the Board of Directors, which determines individual eligibility under the Plan, number of shares reserved for optioning to each individual (not to exceed 5% of issued and outstanding shares to any one individual) and the vesting period. The maximum number of shares of the Company which may be reserved for the issuance shall be 10% of the issued and outstanding shares at the time of the option grant.

The Company records the fair value of stock-based compensation on the granting of stock options over the period in which they vest. The fair value is determined using the Black-Scholes option pricing model.

	2017	2016
Risk-free interest rate	0.75%-0.50	1.25%

12. Related Party Transactions

The Company determined that key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the company. The Board of Directors (executive and non-executive), President and Chief Executive Officer and Chief Financial officer are key management personnel.

The remuneration to key management personnel during the nine months ended March 31, 2017 and June 30, 2016 is as follows:

	<u>March 31, 2017</u>	<u>June 30, 2015</u>
Key management compensation	\$ 700,078	\$ 806,622
Stock-based compensation	32,400	252,300
	<u>\$732,478</u>	<u>\$1,058,922</u>

- a) The Company retains the services of a company owned by an officer and director of the Company to carry out exploration work on its resource properties and for management services. During the nine months ended March 31, 2017, the total amount for such services provided was \$330,000 which was recorded in exploration expenses.
- b) The Company retains the services of two directors and three officers to carry out administrative services. During the nine months ended March 31, 2017, the total amount for such services provided was \$370,078 which was recorded in management and consulting fees. As at March 31, 2017 an amount of \$196,221 was included in trade and other payables. The amount is unsecured, non-interest-bearing and generally due in 30 days. See note 9.

13. Contingencies

- a) The Company's operations are subject to governmental laws and regulations regarding environmental protection. The environmental consequences are hardly identifiable, whether with the outcomes, the impacts or the deadline. As at March 31, 2017 and to the best knowledge of its management, the Company is, in conformity with the laws and regulations.
- b) The Company is partly financed by the issuance of flow-through shares. However, there are no guarantees that the funds spent by the Company will qualify as Canadian exploration expenditures, even if the Company has taken all the necessary measures for this purpose. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors.

Moreover, tax rules regarding flow-through investments set deadlines for carrying out the exploration work no later than the first of the following dates:

- i) Two years following the flow-through investment;
- ii) One year after the Company has renounced the tax deductions relating to the exploration work.

GRANADA GOLD MINE INC.
(formerly Gold Bullion Development Corp)
Notes to the Consolidated Financial Statements
Nine months ended March 31, 2017
Unaudited
(Expressed in Canadian Dollars)

13. Contingencies (cont'd)

- b) During the nine months ended March 31, 2017, the Company received \$3,184,000 from flow-through share issuances. According to the tax rules, the Company has until December 31, 2017 to spend this amount on qualified exploration expenditures. As at March 31, 2017, the Company had an unspent amount of approximately \$1,797,000.

- c) The Company has indemnified the subscribers of current and previous flow-through offerings against any tax related amounts that become payable by shareholders in the event the Company does not meet its expenditure commitment. As at March 31, 2017, in relations to renunciation shortfalls from fiscal years 2006 to 2008, the Company has accrued \$405,145 for Part XII.6 taxes and penalties on the \$1,759,590 shortfall. In addition, \$1,081,110 has been accrued for potential claims which may arise as a result of possible reassessments denying personal tax deductions to the investors. The Company reviewed the reassessment proposed by the CRA, and filed objections on certain of the claims. The CRA denied these objections. In relation to renunciation shortfall from fiscal year 2012, the Company has accrued \$119,418 for Part XII.6 taxes and penalties on the \$765,495 shortfall. In addition, \$367,000 has been accrued for potential claims which may arise as a result of possible reassessments denying personal tax deductions to the investors. In relation to a renunciation shortfall from fiscal year 2014, the Company has accrued \$122,697 for Part XII.6 taxes and penalties on the \$1,064,850 shortfall. In addition, \$597,580 has been accrued for potential claims which may arise as a result of possible reassessments denying personal tax deductions to the investors.

14. Commitments

The Company has consulting service agreements with related parties (certain officers and directors).

- i) Effective January 1, 2007, and amended December 1, 2010, May 16, 2013 and March 1, 2015, the Company entered into a management agreement with Grupo Moje Limited ("Grupo"), a company owned by a director and officer of the Company to provide management services of Frank Basa in consideration for a nominal annual fee of \$1. This agreement also requires that if the agreement is terminated by the Company upon or following a change in control or change of management the Company shall make a payment to Grupo equal to 480 ounces of gold with the dollar amounts to be calculated based on the price of gold on the date of termination of the agreement. As a triggering event has not taken place, the contingent payment has not been reflected in these consolidated financial statements.

- ii) Effective January 1, 2014, the Company entered into a management agreement with Mineral Recovery Management Systems Corp. ("MRMSC"), a company controlled by Frank Basa and Elaine Basa, to provide project management, engineering and geological services to the Company in consideration of \$25,000 per month for the services of Frank Basa and \$11,666.67 per month for the services of Elaine Basa. Either party may terminate this agreement by giving a four months' notice to the other, subject to certain provisions of the agreement.

(Expressed in Canadian Dollars)

14. Commitments (cont'd)

- iii) Effective July 1, 2010 and amended January 1, 2012, and March 1, 2015, the Company entered into a consulting agreement with a director and officer of the Company. The fee for consulting services was \$9,500 per month. Either party may terminate this engagement by giving four months' notice to the other, subject to certain provisions of the agreement. This agreement also requires that if the agreement is terminated by the Company upon or following a change in control or change of management the Company shall make a payment to the consultant of \$228,000. As a triggering event has not taken place, the contingent payment has not been reflected in these consolidated financial statements.
- iv) Effective December 1, 2010 and amended October 1, 2011 and March 1, 2015, the Company entered into an agreement with a director of the Company. The fee for consulting services was \$8,000 per month. Either party may terminate this engagement by giving four months' notice to the other subject to certain provisions of the agreement. The agreement also requires that if the agreement is terminated by the Company upon or following a change in control or change of management the Company shall make a payment to the consultant in the amount of \$192,000. As a triggering event has not taken place, the contingent payment has not been reflected in these consolidated financial statements.
- v) Effective March 1, 2011 and amended February 1, 2012 and March 1, 2015, the Company entered into a consulting agreement with an officer of the Company. The fee for consulting services is USD \$8,000 per month. Either party may terminate this engagement by giving four months' notice to the other subject to certain provisions of the agreement. This agreement also requires that if the agreement is terminated by the Company upon or following a change in control or change of management the Company shall make a payment to the consultant of USD \$192,000. As a triggering event has not taken place, the contingent payment has not been reflected in these consolidated financial statements.

15. Financial Risk Management

The Company's financial risk management policies set out in the Company's audited financial statements for the year ended June 30, 2016 have been applied consistently for the period ended March 31, 2017.
